

VC Case Workshop / MFG Existence Proof

Session 26 • Track 1: Venture capital case • Track 2: MFG equilibrium existence

Samir Asaf, PhD, CFA, CMA, CTP, CM&AA

Senior Partner, Regent Financial LLC, New York

Former Finance Instructor, Stanford University

Primary Text: Liquidity Illusion (Forthcoming, 2026)

Graduate Finance Course • Spring 2027 • Session 26 of 32

Session 26: split-track agenda

TRACK 1 (Practitioner)

Venture capital case workshop

- ▶ Case: Sequoia/WhatsApp acquisition
- ▶ VC-specific Jensen bias calibration (10-yr horizon)
- ▶ Apply LA-PME to a VC fund
- ▶ Group exercise: vintage selection in volatile markets
- ▶ Deliverable: 2-page case memo

TRACK 2 (Researcher)

MFG equilibrium existence

- ▶ Compactness arguments for fixed-point theorem
- ▶ Existence proof via Schauder fixed-point
- ▶ Uniqueness conditions
- ▶ Connection to McKean-Vlasov SDE existence
- ▶ Problem: verify monotonicity condition for uniqueness

Session 26 summary

What we accomplished today

- 1 Session 26 runs split-track: practitioners and researchers work on different deliverables
- 2 Track 1: case-based, applied analysis with deliverable IC memo
- 3 Track 2: theoretical, with deliverable problem set or proof
- 4 Both tracks reconvene in Session 32 for final project presentations

Next session

Session 27: continued split-track or capstone
